

Ziprasidone-d₈

Cat. No.:	HY-14542S		
CAS No.:	1126745-58-1		
Molecular Formula:	C ₂₁ H ₁₃ D ₈ ClN ₄ OS		
Molecular Weight:	420.98		
Target:	5-HT Receptor; Dopamine Receptor; Isotope-Labeled Compounds		
Pathway:	GPCR/G Protein; Neuronal Signaling; Others		
Storage:	Powder	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

BIOLOGICAL ACTIVITY

Description

Ziprasidone-d₈ is deuterium labeled Ziprasidone, which is a combined 5-HT (serotonin) and dopamine receptor antagonist which exhibits potent effects of antipsychotic activity.

Caution: Product has not been fully validated for medical applications. For research use only.
