

DEPC-Treated Water

Cat. No.:	HY-156262		
Target:	Others		
Pathway:	Others		
Storage:	Pure form	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

DEPC-Treated Water

BIOLOGICAL ACTIVITY

Description

DEPC-Treated Water is ultrapure water that has been sterilized by high temperature and high pressure and does not contain nuclease. It can avoid contamination by non-specific endonucleases and exonucleases and does not affect RNase activity^[1].
