# **Screening Libraries**

**Proteins** 

## Inhibitors

## **Acetamide Agar**

Cat. No.: HY-157360

Target: **Biochemical Assay Reagents** 

Pathway:

Storage: Please store the product under the recommended conditions in the Certificate of

Analysis.

Acetamide Agar

## **BIOLOGICAL ACTIVITY**

Description

Acetamide Agar is a solid culture media for non-fermenting bacteria. Acetamide Agar helps differentiate P. acidovorans from other non-sugar-soluble or weakly sugar-soluble Pseudomonas species. Acetamide Agar can be used to test the ability of microorganisms such as Pseudomonas aeruginosa to utilize acetamide through deamination<sup>[1]</sup>.
