

## 1-Bromo-3,5-dimethoxybenzene

|                    |  |       |          |
|--------------------|--|-------|----------|
| Cat. No.:          | HY-W007352                                     |       |          |
| CAS No.:           | 20469-65-2                                     |       |          |
| Molecular Formula: | C <sub>8</sub> H <sub>9</sub> BrO <sub>2</sub> |       |          |
| Molecular Weight:  | 217.06   |       |          |
| Target:            | Biochemical Assay Reagents                     |       |          |
| Pathway:           | Others   |       |          |
| Storage:           | Powder   | -20°C | 3 years  |
|                    |  | 4°C   | 2 years  |
|                    | In solvent                                     | -80°C | 6 months |
|                    |  | -20°C | 1 month  |

### BIOLOGICAL ACTIVITY

|                    |  |
|--------------------|--|
| <b>Description</b> | 1-Bromo-3,5-dimethoxybenzene is a biochemical reagent that can be used as a biological material or organic compound for life science related research.   |
| <b>In Vitro</b>    | 1-Bromo-3,5-dimethoxybenzene is used as an intermediate in the synthetic preparation of pharmaceutical inhibitors via cross-coupling reactions.<br>MCE has not independently confirmed the accuracy of these methods. They are for reference only. |

**Caution: Product has not been fully validated for medical applications. For research use only.**
