## cis-4-Hepten-1-ol-d<sub>2</sub>

**Cat. No.:** HY-W127532S

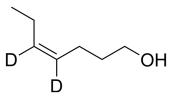

Molecular Formula:  $C_7H_{12}D_2O$ Molecular Weight: 116.2

Target: Biochemical Assay Reagents; Isotope-Labeled Compounds

Pathway: Others

Storage: Please store the product under the recommended conditions in the Certificate of

Analysis.

## **BIOLOGICAL ACTIVITY**

Description	cis-4-Hepten-1-ol-d <sub>2</sub> is deuterated labeled 4-Ethyloctanoic acid (HY-W015307). 4-Ethyloctanoic acid is a natural compound first isolated from Saussurea lappa Clarke, widely used as a safe flavoring compound and acts as food additive <sup>[1]</sup> .
In Vitro	Stable heavy isotopes of hydrogen, carbon, and other elements have been incorporated into drug molecules, largely as tracers for quantitation during the drug development process. Deuteration has gained attention because of its potential to affect the pharmacokinetic and metabolic profiles of drugs <sup>[1]</sup> .  MCE has not independently confirmed the accuracy of these methods. They are for reference only.
