Flurofamide

Cat. No.: HY-100956
CAS No.: 70788-28-2
Molecular Formula: C₇H₉FN₃O₂P
Molecular Weight: 217.14
Target: Bacterial
Pathway: Anti-infection
Storage:
- Powder: -20°C 3 years, 4°C 2 years
- In solvent: -80°C 6 months, -20°C 1 month

BIOLOGICAL ACTIVITY

Description
Flurofamide is a potent bacterial urease inhibitor with potential clinical utility in the treatment of infection induced urinary stones.[1]
