

Dextran sulfate sodium salt (MW5000)

Cat. No.:	HY-116282
CAS No.:	9011-18-1
Target:	HIV; Apoptosis
Pathway:	Anti-infection; Apoptosis
Storage:	4°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

Dextran sulfate sodium salt

SOLVENT & SOLUBILITY

In Vitro	H ₂ O : 100 mg/mL (Need ultrasonic)
----------	------------------------------------------------

BIOLOGICAL ACTIVITY

Description	Dextran sulfate sodium salt (MW5000) is a polymer of anhydroglucose with the molecular weight of 5000.
In Vitro	Dextran sulfate (25 µg/mL) sodium salt completely protects MT-4 cells against HIV-1-induced cytopathogenicity ^[2] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
In Vivo	Dextran sulfate sodium salt (3%; in drinking water for 7 days) induces colitis in mice ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
