

Cyclanilide

| | |
|--------------------|---|
| Cat. No.: | HY-118217 |
| CAS No.: | 113136-77-9 |
| Molecular Formula: | C ₁₁ H ₉ Cl ₂ NO ₃ |
| Molecular Weight: | 274.1 |
| Target: | Endogenous Metabolite |
| Pathway: | Metabolic Enzyme/Protease |
| Storage: | Store at room temperature 3 years In solvent -80°C 2 years -20°C 1 year |

BIOLOGICAL ACTIVITY

Description

Cyclanilide (RPA90946) serves as a plant growth regulator that is applied to cotton during various growth stages.

Caution: Product has not been fully validated for medical applications. For research use only.
