

Dymanthine

Cat. No.:	HY-121429		
CAS No.:	124-28-7		
Molecular Formula:	C ₂₀ H ₄₃ N		
Molecular Weight:	297.56		
Target:	Parasite		
Pathway:	Anti-infection		
Storage:	Pure form	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

BIOLOGICAL ACTIVITY

Description

Dymanthine is an anthelmintic. Dymanthine has the potential for the research of multiple intestinal helminthic infestations [1][2].
