

Rutarin

Cat. No.:	HY-121770
CAS No.:	20320-81-4
Molecular Formula:	C ₂₀ H ₂₄ O ₁₀
Molecular Weight:	424.4
Target:	Others
Pathway:	Others
Storage:	4°C, protect from light * In solvent : -80°C, 6 months; -20°C, 1 month (protect from light)

BIOLOGICAL ACTIVITY

Description

Rutarin is a Coumarin (HY-N0709) derivative, that can be isolated from the aerial parts of the plant *Atalantia racemosa*^[1].
