

Namodenoson

Cat. No.:	HY-12365		
CAS No.:	163042-96-4		
Molecular Formula:	C ₁₈ H ₁₈ ClIN ₆ O ₄		
Molecular Weight:	544.73		
Target:	Adenosine Receptor		
Pathway:	GPCR/G Protein		
Storage:	Powder	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	2 years
		-20°C	1 year

SOLVENT & SOLUBILITY

In Vitro

DMSO : ≥ 31 mg/mL (56.91 mM)
 * "≥" means soluble, but saturation unknown.

Preparing Stock Solutions	Solvent Concentration	Mass		
		1 mg	5 mg	10 mg
	1 mM	1.8358 mL	9.1789 mL	18.3577 mL
	5 mM	0.3672 mL	1.8358 mL	3.6715 mL
	10 mM	0.1836 mL	0.9179 mL	1.8358 mL

Please refer to the solubility information to select the appropriate solvent.

In Vivo

- Add each solvent one by one: 10% DMSO >> 40% PEG300 >> 5% Tween-80 >> 45% saline
 Solubility: ≥ 2.08 mg/mL (3.82 mM); Clear solution
- Add each solvent one by one: 10% DMSO >> 90% (20% SBE-β-CD in saline)
 Solubility: 2.08 mg/mL (3.82 mM); Suspended solution; Need ultrasonic
- Add each solvent one by one: 10% DMSO >> 90% corn oil
 Solubility: ≥ 2.08 mg/mL (3.82 mM); Clear solution

BIOLOGICAL ACTIVITY

Description

Namodenoson (CF-102) is a selective A3 adenosine receptor (A3AR) agonist (K_i=0.33 nM). Namodenoson displays 2500- and 1400-fold selectivity over A1 and A2A receptors respectively^{[1][2]}.

IC₅₀ & Target

Ki:0.33 nM (A3 adenosine receptor)^{[1][2]}.

In Vitro

In human ADF cells of astroglial lineage, 100 nM Namodenoson (2-Cl-IB-MECA) caused a marked reorganization of the

cytoskeleton, with appearance of stress fibres and numerous cell protrusions. High concentrations of Namodenoson (2-Cl-IB-MECA) directly cause influx of Ca²⁺[2].

MCE has not independently confirmed the accuracy of these methods. They are for reference only.

In Vivo

Intravenous administration of 200 µg/kg Namodenoson (2-Cl-IB-MECA) resulted in a short-lasting hypotension, which was accompanied by a 50-100-fold increase in plasma histamine concentrations. Administration of a second dose of Namodenoson (2-Cl-IB-MECA) did not elicit any hemodynamic effects^[1].

MCE has not independently confirmed the accuracy of these methods. They are for reference only.
