

Oleyl alcohol

| | | | |
|--------------------|-----------------------------------|-------|----------|
| Cat. No.: | HY-141573 | | |
| CAS No.: | 143-28-2 | | |
| Molecular Formula: | C ₁₈ H ₃₆ O | | |
| Molecular Weight: | 268.48 | | |
| Target: | Others | | |
| Pathway: | Others | | |
| Storage: | Pure form | -20°C | 3 years |
| | In solvent | -80°C | 6 months |
| | | -20°C | 1 month |

BIOLOGICAL ACTIVITY

Description

Oleyl alcohol is an active compound. Oleyl alcohol can be used for various studies^[1].
