(Z)-Lanoconazole

Cat. No.: HY-14282A

Molecular Formula: $C_{14}H_{10}ClN_3S_2$

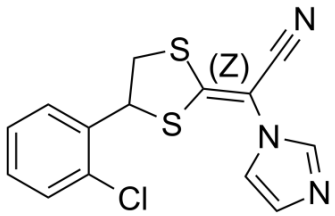
Molecular Weight: 319.83

Target: Fungal

Pathway: Anti-infection

Storage:

Powder	-20°C	3 years
	4°C	2 years
In solvent	-80°C	6 months
	-20°C	1 month



SOLVENT & SOLUBILITY

In Vitro

DMSO : 100 mg/mL (312.67 mM; Need ultrasonic)

H_2O : < 0.1 mg/mL (insoluble)

Preparing Stock Solutions

Solvent / Mass / Concentration	1 mg	5 mg	10 mg
1 mM	3.1267 mL	15.6333 mL	31.2666 mL
5 mM	0.6253 mL	3.1267 mL	6.2533 mL
10 mM	0.3127 mL	1.5633 mL	3.1267 mL

Please refer to the solubility information to select the appropriate solvent.

In Vivo

1. Add each solvent one by one: 10% DMSO >> 40% PEG300 >> 5% Tween-80 >> 45% saline
   Solubility: ≥ 2.5 mg/mL (7.82 mM); Clear solution
2. Add each solvent one by one: 10% DMSO >> 90% (20% SBE-β-CD in saline)
   Solubility: 2.5 mg/mL (7.82 mM); Suspended solution; Need ultrasonic

BIOLOGICAL ACTIVITY

Description

(Z)-Lanoconazole is the Z configuration of Lanoconazole. Lanoconazole is a potent and orally active imidazole antifungal agent, shows a broad spectrum of activity against fungi in vitro and in vivo[1]. Lanoconazole interferes with ergosterol biosynthesis by inhibiting sterol 14-alpha demethylase and blocking fungal membrane ergosterol biosynthesis. Lanoconazole can be used for the investigation of dermatophytosis and onychomycosis[1][2].

IC_{50} & Target

IC50: antifungal[1]

In Vivo

Lanoconazole (treatment for ear; 0.3%-3%; 6 days) dose⊠dependently suppressesTPA-induced irritant dermatitis, suppresses the production of neutrophil chemotactic factors such as keratinocyte⊠derived chemokine and macrophage inflammatory protein-2, and inhibited neutrophil infiltration to the inflammation site[2].

Lanoconazole (oral administration; 3, 10 or 30 mg/kg; once a day; 3 weeks) significantly inhibits C. neoformans compared with the saline control in normal mice. In addtion, it significantly reduces the growth of C. neoformans in the lungs and brains of MAIDS mice[3].

MCE has not independently confirmed the accuracy of these methods. They are for reference only.
