

ODN 2088 sodium

Cat. No.:	HY-150738C
Target:	Nucleoside Antimetabolite/Analog
Pathway:	Cell Cycle/DNA Damage
Storage:	-20°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

ODN 2088 (sodium)

BIOLOGICAL ACTIVITY

Description

ODN 2088 sodium is a potent TLR3, TLR7 and TLR9 inhibitor. ODN 2088 sodium shows no cytotoxic. ODN 2088 inhibits the release of IFN- α and IL-6^{[1][2][3]}.

Caution: Product has not been fully validated for medical applications. For research use only.
