

Aluminum hydroxide adjuvant

Cat. No.:	HY-153205		
Target:	Others		
Pathway:	Others		
Storage:	Pure form	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

Aluminum hydroxide adjuvant

BIOLOGICAL ACTIVITY

Description

Aluminum hydroxide adjuvant is a vaccine adjuvant. Aluminum hydroxide adjuvant induces the differentiation of macrophages into a new type of mature, specialized antigen-presenting cells in vitro^[1].
