BIOLOGICAL ACTIVITY	
Biologicite Activiti	
Description	DNMT3A-IN-3 is an allosteric DNA methyltransferase 3A (DNMT3A) inhibitor. DNMT3A-IN-3 binds and disrupt protein-protein interactions (PPIs) at the DNMT3A tetramer interface ^[1] .
In Vitro	DNMT3A-IN-3 (compound 1) disrupts DNMT3A_WT homo- or heterotetramers but not interactions with histone H3 tails ^[1] . DNMT3A-IN-3 (compound 1) shows a K _i of 3.70-7.06 μM with AdoMet ^[2] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
