

Histamine/OVA

Cat. No.:	HY-158297
Target:	Endogenous Metabolite; Histamine Receptor
Pathway:	Metabolic Enzyme/Protease; GPCR/G Protein; Immunology/Inflammation; Neuronal Signaling
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

Histamine/OVA

BIOLOGICAL ACTIVITY

Description

Histamine/OVA is one of protein/peptide and small molecule drug conjugates (PDCs), consisting of Histamine (HY-B1204) and OVA. PDCs are promising targeted therapeutics with better cell permeability and drug selectivity than antibody-drug conjugates (ADCs). PDCs have been widely used in research on cancer, COVID-19, and metabolic diseases^[1].
