

## E3 Ligase Ligand-linker Conjugate 12

|                    |   |
|--------------------|---|
| Cat. No.:          | HY-162185   |
| Molecular Formula: | C <sub>30</sub> H <sub>39</sub> N <sub>5</sub> O <sub>6</sub>                             |
| Molecular Weight:  | 565.66  |
| Target:            | Ligands for E3 Ligase; Autophagy  |
| Pathway:           | PROTAC; Autophagy   |
| Storage:           | Please store the product under the recommended conditions in the Certificate of Analysis. |

### BIOLOGICAL ACTIVITY

|                           |  |
|---------------------------|--|
| Description               | E3 Ligase Ligand-linker Conjugate 12 is a conjugate of E3 ligase ligand and linker, consisting of Thalidomide (HY-14658) and the corresponding Linker. E3 Ligase Ligand-linker Conjugate 12 can serve as Cereblon ligand to recruit CRBN protein and serve as a key intermediate for the synthesis of complete PROTAC molecules. |
| IC <sub>50</sub> & Target | Cereblon (CRBN) <sup>[1]</sup>   |
