Data Sheet

Product Name: Adomeglivant
Cat. No.: HY-19904
CAS No.: 1488363-78-5
Molecular Formula: C_{32}H_{36}F_{3}NO_{4}
Molecular Weight: 555.63
Target: Glucagon Receptor
Pathway: GPCR/G Protein
Solubility: DMSO: ≥ 5.3 mg/mL

BIOLOGICAL ACTIVITY:
Adomeglivant is a potent and selective glucagon receptor antagonist that is used in clinical trial for type 2 diabetes mellitus.

References:

Caution: Product has not been fully validated for medical applications. For research use only.
