

1-(2-Hydroxyethyl)piperazine

Cat. No.:	HY-41939
CAS No.:	103-76-4
Molecular Formula:	C ₆ H ₁₄ N ₂ O
Molecular Weight:	130.19
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	4°C, protect from light, stored under nitrogen * In solvent : -80°C, 6 months; -20°C, 1 month (protect from light, stored under nitrogen)

BIOLOGICAL ACTIVITY

Description

1-(2-Hydroxyethyl)piperazine is a biochemical reagent that can be used as a biological material or organic compound for life science related research.

In Vitro

1-Piperazineethanol is a hydroxyalkyl substituted piperazine used in the preparation of pharmaceutical compounds. It is also used as an Intermediate in the manufacture of polyurethane catalysts, corrosion inhibitors, surfactants, synthetic fibers, pharmaceuticals. It is also used to synthesize triethylenediamine.
MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
