

2-(Triphenylphosphoranylidene)acetaldehyde

Cat. No.:	HY-75884
CAS No.:	2136-75-6
Molecular Formula:	C ₂₀ H ₁₇ OP
Molecular Weight:	304.32
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	-20°C, stored under nitrogen

* The compound is unstable in solutions, freshly prepared is recommended.

BIOLOGICAL ACTIVITY

Description	2-(Triphenylphosphoranylidene)acetaldehyde is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
In Vitro	(Formylmethylene)triphenylphosphorane is used as Wittig reagent. It is also used as Pharmaceutical Intermediates. It is employed as raw material in organic Synthesis, Agrochemicals. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
