

## D-Sorbitol, M200 (Excipient)

Cat. No.:	HY-B0400D
CAS No.:	50-70-4
Molecular Formula:	C <sub>6</sub> H <sub>14</sub> O <sub>6</sub>
Molecular Weight:	182.17
Target:	Others
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

### BIOLOGICAL ACTIVITY

#### Description

D-Sorbitol, M200 (D-Glucitol, M200) Excipient Can be used as pharmaceutical excipients, such as lubricants. Pharmaceutical excipients or pharmaceutical adjuvants refer to other chemical substances used in the pharmaceutical process in addition to drug ingredients. Pharmaceutical excipients generally refer to inactive ingredients in drug preparations, which can improve the stability, solubility and processability of drug preparations. Pharmaceutical excipients can also affect the absorption, distribution, metabolism and elimination of combined drugs. (ADME)process.
