

Mefexamide hydrochloride

Cat. No.:	HY-B0950A
CAS No.:	3413-64-7
Molecular Formula:	C ₁₅ H ₂₅ ClN ₂ O ₃
Molecular Weight:	316.82
Target:	Others
Pathway:	Others
Storage:	4°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

BIOLOGICAL ACTIVITY

Description

Mefexamide hydrochloride is a particular psychostimulant that is capable of reversing the psychodepressant effects induced by diazepam and benzodiazepine sedatives^[1].
