

## Prednicarbate

Cat. No.:	HY-B1365
CAS No.:	73771-04-7
Molecular Formula:	C <sub>27</sub> H <sub>36</sub> O <sub>8</sub>
Molecular Weight:	488.57
Target:	Glucocorticoid Receptor
Pathway:	Immunology/Inflammation
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

### BIOLOGICAL ACTIVITY

Description	Prednicarbate is a topical corticosteroid agent. Prednicarbate can be used for the research of inflammatory skin diseases, such as atopic dermatitis <sup>[1][2]</sup> .
In Vitro	Prednicarbate (0.25%; applied daily to the ear skin area for 2 days) recovers the 2,4-dinitrochlorobenzene (DNCB)-induced atopic dermatitis of mice <sup>[2]</sup> . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
