

Pyronine B

Cat. No.:	HY-D0949
Molecular Formula:	C ₄₂ H ₅₄ Cl ₈ Fe ₂ N ₄ O ₂
Molecular Weight:	1042.22
Target:	Others
Pathway:	Others
Storage:	4°C, protect from light * In solvent : -80°C, 6 months; -20°C, 1 month (protect from light)

BIOLOGICAL ACTIVITY

Description

Pyronine B is an organic cationic dye. Pyronin B as a solution-processable and heating-free n-type dopant can be used for soft electronics^[1].
