

Leucyl aminopeptidase

Cat. No.:	HY-E70128
CAS No.:	9001-61-0
Target:	Others
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

Leucyl aminopeptidase

BIOLOGICAL ACTIVITY

Description

Leucyl aminopeptidase is a metallopeptidase that cleave N-terminal residues from proteins and peptides. Leucyl aminopeptidase serves as transcriptional repressors to control pyrimidine, alginate and cholera toxin biosynthesis, as well as mediate site-specific recombination events in plasmids and phages^[1].
