

Cathepsin H, human liver

Cat. No.:	HY-E70228
CAS No.:	60748-73-4
Target:	Others
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

Cathepsin H, human liver

BIOLOGICAL ACTIVITY

Description

Cathepsin H, human liver is an aminopeptidase and an endopeptidase. Involved in the catabolism of proteins in the lysosomal system. Cathepsin H, human liver has a key role in the regulation of the biological behavior of tumor cells and the pathological processes of brain diseases^[1].
