**Product Name:** Manninotriose  
**Cat. No.:** HY-N0913  
**CAS No.:** 13382-86-0  
**Molecular Formula:** C_{18}H_{32}O_{16}  
**Molecular Weight:** 504.44  
**Target:** Others  
**Pathway:** Others  
**Solubility:** 10 mM in DMSO; H₂O: 83.3 mg/mL

**BIOLOGICAL ACTIVITY:**
Manninotriose is a novel and important player in the RFO (Raffinose family oligosaccharides) metabolism of red dead deadnettle; potential to improve the side effects of MTX for ALL treatment.

**References:**

**Caution:** Product has not been fully validated for medical applications. For research use only.
