

6'-Sialyllactose

Cat. No.:	HY-N10521
CAS No.:	35890-39-2
Molecular Formula:	C ₂₃ H ₃₉ NO ₁₉
Molecular Weight:	633.55
Target:	Toll-like Receptor (TLR)
Pathway:	Immunology/Inflammation
Storage:	4°C, sealed storage, away from moisture and light * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture and light)

BIOLOGICAL ACTIVITY

Description	6'-Sialyllactose is a sialylated human milk oligosaccharide that can promote the proliferation of bifidobacteria and shaping the gut microbiota. 6'-Sialyllactose also inhibits toll-like receptor 4 signaling and protects against the development of necrotizing enterocolitis ^{[1][2]} .
In Vitro	6'-Sialyllactose (10 mg/mL; supplementation of infant formula) prevent necrotizing enterocolitis (NEC) in mice in a dose-dependent manner ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
