

trans-4-Hydroxy-2-nonenic acid

Cat. No.:	HY-N10923
CAS No.:	95087-42-6
Molecular Formula:	C ₉ H ₁₆ O ₃
Molecular Weight:	172.22
Target:	Others
Pathway:	Others
Storage:	-20°C, stored under nitrogen * In solvent : -80°C, 6 months; -20°C, 1 month (stored under nitrogen)

BIOLOGICAL ACTIVITY

Description

trans-4-Hydroxy-2-nonenic acid (compound 4) is a nature product that could be isolated from the genus *Pottsia*^[1].
