

cis-Nerolidol

Cat. No.:	HY-N1944A
CAS No.:	3790-78-1
Molecular Formula:	C ₁₅ H ₂₆ O
Molecular Weight:	222.37
Target:	Bacterial
Pathway:	Anti-infection
Storage:	4°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

BIOLOGICAL ACTIVITY

Description

cis-Nerolidol is a sesquiterpene alcohol that can be found in various plants. cis-Nerolidol exhibits antioxidant and antibacterial activities. cis-Nerolidol can also potentiate the action of antibiotics^[1].
