

Salipurpin

Cat. No.:	HY-N2883
CAS No.:	28757-27-9
Molecular Formula:	C ₂₁ H ₂₀ O ₁₀
Molecular Weight:	432.38
Target:	Others
Pathway:	Others
Storage:	4°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

BIOLOGICAL ACTIVITY

Description

Salipurpin (Apigenin 5-glucoside) is a flavonoid compound isolated from the branches and leaves of *Cephalotaxus fortunei*, which has certain anti-inflammatory activity^[1].
