

Vitronectin

Cat. No.:	HY-P2913
CAS No.:	83380-82-9
Target:	Others
Pathway:	Others
Storage:	-20°C, protect from light, stored under nitrogen * In solvent : -80°C, 6 months; -20°C, 1 month (protect from light, stored under nitrogen)

Vitronectin

BIOLOGICAL ACTIVITY

Description

Vitronectin is a multifunctional glycoprotein present in blood and in the extracellular matrix. Vitronectin binds glycosaminoglycans, collagen, plasminogen and the urokinase-receptor. Vitronectin also stabilizes the inhibitory conformation of plasminogen activation inhibitor-1. Vitronectin can be used for researching wound healing and in tumorprogression^[1].
