BIOLOGICAL ACTIVITY

Description	HKPao (Hunter-killer peptide ao) is a biologically active peptide. HKPao (Hunter-killer peptide ao) has anti-obesity and anti-tumor pro-apoptotic activity to cause release of cytochrome c from vesicles ^[1] .
In Vitro	HKPao can induce leakage of fluorescent dextrans from vesicles that have a larger hydrodynamic radius ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
