

Product Data Sheet

Animal-Free RSPO1/R-spondin-1 Protein, Human (243a.a, HEK293, His, SUMO)

Cat. No.: HY-P700253AF

Synonyms: R-spondin-1; Roof plate-specific spondin-1; RSPO1

Species: Human HEK293 Source:

Q2MKA7-1 (S21-A263) Accession:

Gene ID: 284654

Molecular Weight: Approximately 65 kDa

GPA

Biological Activity

R-Spondin-1 enhances BMP-2-mediated differentiation of MC3T3-E1cells. The ED $_{50}$ for this effect is 1-3 μ g/mL.

Appearance

Solution.

Formulation

Supplied as a 0.2 µm filtered solution of PBS, pH 7.4.

Endotoxin Level

<1 EU/µg, determined by LAL method.

Reconsititution

N/A.

Storage & Stability

Stored at -80°C for 1 year. It is stable at -20°C for 3 months after opening. It is recommended to freeze aliquots at -80°C for extended storage. Avoid repeated freeze-thaw cycles.

Shipping

Shipping with dry ice

DESCRIPTION

Background

RSPO1, also known as R-spondin-1, serves as an activator of the canonical Wnt signaling pathway by acting as a ligand for LGR4-6 receptors. Upon binding to LGR4-6 (LGR4, LGR5, or LGR6), the resulting complex associates with phosphorylated LRP6 and frizzled receptors, activated by extracellular Wnt receptors. This interaction triggers the canonical Wnt signaling pathway, leading to an upregulation of target gene expression. Additionally, RSPO1 plays a role in modulating the canonical Wnt/beta-catenin-dependent pathway and non-canonical Wnt signaling by inhibiting ZNRF3, a crucial regulator in the Wnt pathway. Acting as a ligand for frizzled FZD8 and LRP6, RSPO1 also negatively regulates the TGF-beta pathway and has essential functions in ovary determination. Furthermore, RSPO1 regulates Wnt signaling by counteracting DKK1/KREM1-mediated internalization of LRP6 through an interaction with KREM1. The protein interacts with the extracellular domain of FZD8 and LRP6, forms a complex with RNF43, LGR5, and RSPO1, and binds heparin. RSPO1's interactions with ZNRF3 facilitate the membrane clearance of ZNRF3, contributing to its multifaceted role in Wnt pathway regulation.

Caution: Product has not been fully validated for medical applications. For research use only.
