TRAIL R2/TNFRSF10B Protein, Mouse (HEK293, Avi-His)

Cat. No.:	HY-P71378
Synonyms:	Tumor necrosis factor receptor superfamily member 10B; Death receptor 5; MK; CD262; Tnfrsf10b; Dr5; Killer
Species:	Mouse
Source:	HEK293
Accession:	Q9QZM4 (N53-S177)
Gene ID:	21933
Molecular Weight:	20-40 kDa

PROPERTIES

AA Sequence	N P A H N R P A G L Q R P E E S P S R G P C L A G Q Y L S E G N C K P C R E G I D Y T S H S N H S L D S C I L C T V C K E D K V V E T R C N I T T N T V C R C K P G T F E D K D S P E I C Q S C S N C T D G E E E L T S C T P R E N R K C V S K T A W A S
Appearance	Lyophilized powder.
Formulation	Lyophilized from a 0.2 μm filtered solution of PBS, pH 7.4.
Endotoxin Level	<1 EU/μg, determined by LAL method.
Reconsititution	It is not recommended to reconstitute to a concentration less than 100 μg/mL in ddH_2O. For long term storage it is recommended to add a carrier protein (0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose).
Storage & Stability	Stored at -20°C for 2 years. After reconstitution, it is stable at 4°C for 1 week or -20°C for longer (with carrier protein). It is recommended to freeze aliquots at -20°C or -80°C for extended storage.
Shipping	Room temperature in continental US;may vary elsewhere.

DESCRIPTION

Background	TRAIL R2/TNFRSF10B Protein serves as a receptor for the cytotoxic ligand TNFSF10/TRAIL. Upon ligand binding, the adapter molecule FADD recruits caspase-8 to the activated receptor, leading to the formation of the death-inducing signaling complex (DISC). The DISC performs caspase-8 proteolytic activation, initiating a cascade of caspases that mediate apoptosis. Additionally, TRAIL R2/TNFRSF10B promotes the activation of NF-kappa-B and is essential for ER stress-induced apoptosis. In its monomeric form, it can interact with TRADD and RIPK1, and three TNFRSF10B molecules interact with the TNFSF10 homotrimer. In the absence of stimulation, TRAIL R2/TNFRSF10B interacts with BIRC2, DDX3X, and GSK3B, with enhanced interactions observed upon receptor stimulation, accompanied by DDX3X and BIRC2 cleavage (By similarity).

Caution: Product has not been fully validated for medical applications. For research use only.
