

## Product Data Sheet

## HA/Hemagglutinin Protein, H1N1 (ABD77675, HEK293, His)

Cat. No.:	HY-P74112
Synonyms:	HA; Hemagglutinin; HA/Hemagglutinin Protein, H1N1 (A/Puerto Rico/8/1934, HEK293, His)
Species:	Virus
Source:	HEK293
Accession:	ABD77675 (D18-R343)
Gene ID:	/
Molecular Weight:	50-55 kDa

PROPERTIES	
Appearance	Solution
Formulation	Supplied as a 0.2 μm filtered solution of PBS, pH 7.4.
Endotoxin Level	<1 EU/µg, determined by LAL method.
Reconsititution	N/A.
Storage & Stability	Stored at -80°C for 1 year. It is stable at -20°C for 3 months after opening. It is recommended to freeze aliquots at -80°C for
Storage & Stability	extended storage. Avoid repeated freeze-thaw cycles.
Shipping	Shipping with dry ice

	DESCRIPTION	
containing receptors on the cell surface. This interaction not only induces virion internalization through clathrin-depend endocytosis but also facilitates an alternative clathrin- and caveolin-independent pathway for about one-third of the viru particles. HA is a Class I viral fusion protein responsible for penetrating the cell cytoplasm by mediating the fusion of the virus particle's membrane with the endosomal membrane. The low pH environment in endosomes triggers an irreversible	Background	

## Caution: Product has not been fully validated for medical applications. For research use only.
