

# **Product** Data Sheet

# CD24 Protein, Human (Biotinylated, HEK293, His-Avi)

Cat. No.: HY-P78913 Synonyms: CD24; CD24A

Species: Human **HEK293** Source:

Accession: P25063 (S27-G59)

Gene ID: 100133941

**Molecular Weight:** Approximately 43 kDa

## **PROPERTIES**

Biological Activity	Immobilized Biotinylated Human CD24 His-Avi at 5 $\mu$ g/mL (100 $\mu$ L/well) on Streptavidin precoated (0.5 $\mu$ g/well) plate can bind Anti-CD24 MAb (SN3) with a linear range of 0.6-10 $\mu$ g/mL.
Appearance	Lyophilized powder
Formulation	Lyophilized a 0.22 μm filtered solution of PBS, 6% Trehalose, pH 7.4.
Endotoxin Level	<1 EU/µg, determined by LAL method.
Reconsititution	It is not recommended to reconstitute to a concentration less than 100 $\mu g/mL$ in ddH <sub>2</sub> O.
Storage & Stability	Stored at -20°C for 2 years. After reconstitution, it is stable at 4°C for 1 week or -20°C for longer (with carrier protein). It is recommended to freeze aliquots at -20°C or -80°C for extended storage.
Shipping	Room temperature in continental US; may vary elsewhere.

## **DESCRIPTION**

Background

The CD24 protein is implicated in playing a pivotal role in the cell differentiation of various cell types, with its signaling potentially triggered by the binding of a lectin-like ligand to CD24 carbohydrates, transduced through the release of second messengers derived from the GPI-anchor. CD24 also functions in modulating B-cell activation responses, promoting AGdependent proliferation of B-cells, and preventing their terminal differentiation into antibody-forming cells. In association with SIGLEC10, CD24 may contribute to the selective suppression of the immune response to danger-associated molecular patterns (DAMPs) such as HMGB1, HSP70, and HSP90, suggesting a role in immune regulation. Additionally, CD24 is implicated in the control of autoimmunity. It exhibits cell-type-specific interactions with LYN and FGR, binding to FRG in a small cell cancer line, LYN in the erythroleukemia cell line K-562, and in Burkitt's lymphoma, highlighting its diverse involvement in cellular processes and immune regulation.
