

Product Data Sheet

Fas Antibody

Cat. No.:	HY-P80666	
Synonyms:	Fas Antibody is a non-conjugated and Rabbit origined monoclonal antibody about 38 kDa, targeting to Fas. It can be used for WB,IHC-F,IHC-P,ICC/IF assays with tag free, in the background of Human.	
Host:	Rabbit	
Reactivity:	Human	
Conjugation:	Non-conjugated	
SwissProt ID:	P25445	
Research Field:	Cell Biology	
Molecular Weight:	Predicted band size: 38 kDa	

PROPERTIES			
Formulation	Supplied in 50 mM Tris-Glycine (pH 7.4), 0.15 M NaCl, 40% Glycerol and 0.05% BSA. Preservative: 0.01% Sodium azide		
Purity	affinity purified		
Storage & Stability	Stored at -20°C for 1 year. Avoid repeated freeze / thaw cycles.		
Appearance	Liquid		
Application & Dilution Ratio	Application	Dilution Ratio	
	WB	1:500-1:1,000	
	ІНС	1:50-1:100	
	IF	1:50-1:200	
Shipping	Shipping with blue ice.		

DESCRIPTION

BackgroundFas: The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor contains a death domain.
It has been shown to play a central role in the physiological regulation of programmed cell death, and has been implicated
in the pathogenesis of various malignancies and diseases of the immune system. The interaction of this receptor with its
ligand allows the formation of a death-inducing signaling complex that includes Fas-associated death domain protein
(FADD), caspase 8, and caspase 10. The autoproteolytic processing of the caspases in the complex triggers a downstream
caspase cascade, and leads to apoptosis. This receptor has been also shown to activate NF-kappaB, MAPK3/ERK1, and
MAPK8/JNK, and is found to be involved in transducing the proliferating signals in normal diploid fibroblast and T cells.
Several alternatively spliced transcript variants have been described, some of which are candidates for nonsense-mediated
mRNA decay (NMD). The isoforms lacking the transmembrane domain may negatively regulate the apoptosis mediated by
the full length isoform. [provided by RefSeq, Mar 2011]

Caution: Product has not been fully validated for medical applications. For research use only.
