Proteins

Product Data Sheet

Bersanlimab

Cat. No.: HY-P99473

CAS No.: 1987854-08-9
Target: Integrin

Pathway: Cytoskeleton

Storage: Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	Bersanlimab (BI-505) is a fully human monoclonal antibody that targets intercellular adhesion molecule-1 (ICAM-1 or CD54). Bersanlimab has anticancer effects ^[1] .	
In Vitro	BI-505 (1 ng/mL-1000 µg/mL) dose-dependently induces programmed cell death (PCD) in ICAM-1-expressing Ramos, Raji, and Daudi lymphoma cells ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.	
In Vivo	Bersanlimab (BI-505; 20 mg/kg; i.p.; twice-weekly; for 21 days) significantly reduceds tumor growth and prolonges animal survival ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.	
	Animal Model:	SCID mice injected with ARH-77 cells ^[1]
	Dosage:	20 mg/kg
	Administration:	i.p.; twice-weekly; for 21 days
	Result:	Significantly reduced tumor growth and prolonged animal survival.
