

Birtamimab

Cat. No.:	HY-P99481
CAS No.:	1608108-91-3
Target:	Amyloid- β
Pathway:	Neuronal Signaling
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	Birtamimab (NEOD001) is an investigational monoclonal antibody that specifically and selectively target and clear the amyloid. Birtamimab can be used for the research of light chain amyloidosis ^[1] .
In Vitro	Birtamimab can neutralize circulating soluble amyloid and deposited insoluble amyloid, thus promoting the phagocytic clearance of amyloid deposits ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
