

Eftozanermin alfa

Cat. No.:	HY-P99934
CAS No.:	1820660-69-2
Target:	Apoptosis
Pathway:	Apoptosis
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description

Eftozanermin alfa (ABBV-621) is a second-generation tumor necrosis factor-related apoptosis-inducing ligand receptor (TRAIL-R) agonist. Eftozanermin alfa induces apoptosis in tumor cells by activation of death receptors 4/5. Eftozanermin alfa can be used for the research of multiple solid and heme malignancies^{[1][2]}.
