## hsa-miR-10401-3p agomir

| Cat. No.:         | HY-R00043A  |
|-------------------|---|
| Molecular Weight: | 14598.11  |
| Target:           | MicroRNA  |
| Pathway:          | Epigenetics   |
| Storage:          | Please store the product under the recommended conditions in the Certificate of Analysis. |

| <b>BIOLOGICAL ACTIV</b> |  |

|                         |  |
| Description             | nsa-miR-10401-3p agomirs are chemically-modified double-strand miRNA mimics with modified mature miRNA strand: 2<br>phosphorothioates at the 5' end, 4 phosphorothioates at the 3' end, 3' end cholesterol group, and full-length nucleotide 2'-<br>nethoxy modification. They are designed to mimic endogenous miRNAs and recommended for miRNA functional studies. |
|                         | Compared with miRNA mimics, they exhibits enhanced cellular uptake, stability and regulatory activity in vivo.   |

## Caution: Product has not been fully validated for medical applications. For research use only.
