## mmu-miR-2139 agomir

| Cat. No.:         | HY-R02828A  |
|-------------------|---|
| Molecular Weight: | 16501.28  |
| Target:           | MicroRNA  |
| Pathway:          | Epigenetics   |
| Storage:          | Please store the product under the recommended conditions in the Certificate of Analysis. |

| BIOLOGICAL ACTIVITY |  |
|---------------------|--|
|                     |  |
| Description         | mmu-miR-2139 agomirs are chemically-modified double-strand miRNA mimics with modified mature miRNA strand: 2                 |
|                     | phosphorothioates at the 5' end, 4 phosphorothioates at the 3' end, 3' end cholesterol group, and full-length nucleotide 2'- |
|                     | methoxy modification. They are designed to mimic endogenous miRNAs and recommended for miRNA functional studies.             |
|                     | Compared with miRNA mimics, they exhibits enhanced cellular uptake, stability and regulatory activity in vivo.               |
|                     |  |

### Caution: Product has not been fully validated for medical applications. For research use only.
