

2-Bromothiazole

Cat. No.:	HY-W001223	
CAS No.:	3034-53-5	
Molecular Formula:	C ₃ H ₂ BrNS	
Molecular Weight:	164.02	
Target:	Biochemical Assay Reagents	
Pathway:	Others	
Storage:	Pure form	-20°C 3 years
	In solvent	-80°C 6 months
		-20°C 1 month

BIOLOGICAL ACTIVITY

Description

2-Bromothiazole is a biochemical reagent that can be used as a biological material or organic compound for life science related research.

In Vitro

2-Bromothiazole, is intended used for research purpose only. It is also used as Aryl halide which are used to N-arylate 5-and 7-azaindoles. Copper-catalyzed cyanation provides 2-cyanothiazole
MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
