

Ethyl 2-bromothiazole-5-carboxylate

Cat. No.:	HY-W002625
CAS No.:	41731-83-3
Molecular Formula:	C ₆ H ₆ BrNO ₂ S
Molecular Weight:	236.09
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	<div>Pure form -20°C 3 years</div> <div>In solvent -80°C 6 months</div> <div>-20°C 1 month</div>

BIOLOGICAL ACTIVITY

Description	Ethyl 2-bromothiazole-5-carboxylate is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
In Vitro	Ethyl 2-bromothiazole-5-carboxylate is used in medicine, pharmaceutical intermediate MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
