

Pyridazine

Cat. No.:	HY-W007494
CAS No.:	289-80-5
Molecular Formula:	C ₄ H ₄ N ₂
Molecular Weight:	80.09
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	-20°C, sealed storage, away from moisture * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture)

BIOLOGICAL ACTIVITY

Description	Pyridazine is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
In Vitro	Pyrrolo[1,2-b]pyridazine 1 is a N-bridgehead aromatic heterocycle containing two nitrogen atoms, is obtained by the condensation of pyridazine and pyrrole. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
