

4-Methyl-2-phenyl-1,3-dioxolane

Cat. No.:	HY-W010119		
CAS No.:	2568-25-4		
Molecular Formula:	C ₁₀ H ₁₂ O ₂		
Molecular Weight:	164.2		
Target:	Biochemical Assay Reagents		
Pathway:	Others		
Storage:	Pure form	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

BIOLOGICAL ACTIVITY

Description	4-Methyl-2-phenyl-1,3-dioxolane is an organic compound commonly used as a solvent and intermediate. It can be used in some organic synthesis reactions, such as the synthesis of drugs or other organic compounds. In addition, this compound is also widely used in industrial production fields, such as plastics, coatings and glues.
In Vitro	4-Methyl-2-phenyl-1,3-dioxolane is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
