

(E)-3-(2-Furyl)acrolein

Cat. No.:	HY-W012845A
CAS No.:	39511-08-5
Molecular Formula:	C ₇ H ₆ O ₂
Molecular Weight:	122.12
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	4°C, stored under nitrogen * In solvent : -80°C, 6 months; -20°C, 1 month (stored under nitrogen)

BIOLOGICAL ACTIVITY

Description	(E)-3-(2-Furyl)acrolein, derived from 2-acid-acid-rich acid reaction, is used in food, cosmetics and other fields, medicine and agriculture. In the food industry, (E)-3-(2-Furyl)acrolein, as a natural seasoning food additive, has an important seasoning effect.
In Vitro	(E)-3-(2-Furyl)acrolein is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
