## Benzoylacetone

| Cat. No.:          | HY-W013607  |               |
|--------------------|---|---------------|
| CAS No.:           | 93-91-4   | $\cap$ $\cap$ |
| Molecular Formula: | C <sub>10</sub> H <sub>10</sub> O <sub>2</sub>  |               |
| Molecular Weight:  | 162.19  |               |
| Target:            | Biochemical Assay Reagents  |               |
| Pathway:           | Others  |               |
| Storage:           | Please store the product under the recommended conditions in the Certificate of Analysis. | ~             |

| BIOLOGICAL ACTIVITY |  |  |
|---------------------|--|--|
|                     |  |  |
| Description         | 1-Phenylbutane-1,3-dione is a biochemical reagent that can be used as a biological material or organic compound for life science related research. |  |
| In Vitro            | Benzoylacetone has antibacterial activity.<br>MCE has not independently confirmed the accuracy of these methods. They are for reference only.      |  |

Caution: Product has not been fully validated for medical applications. For research use only.
